A Noted Explorer

Will Visit Bow Island During Chautauqua Week.

G. Whitfield-Hay, F.R.G.S., the celebrated explorer who spent fourteen years in exploration in South America, and whose lectures on the little known republics of our southern continental neighbors have enlisted the attention of the country, is coming to Chautauqua on the second night.

No story told upon the platform has awakened more interest nor proven more timely in this epoch-making era when trade conditions are being changed by the great War, and South America has suddenly become a fruitful field of commercial conquest. Dr. Hay will take you on a personally conducted tour of South America, graphically describing the vast area of the country, with room and fertility of soil to support the world; you'll pass through territory where few white men have ever penetrated, making the acquaintance of savage tribes with customs old as those of the Holy Land. You'll stand at the border of unexplored territory, comprising tens of thousands of miles; thirteen hundred miles from a railroad you'll follow him breathlessly, visiting the oldest known cities built by prehistoric man, then back to marvel at the modernity of the present great cities of the country, which are among the most progressive in the world. You'll learn that Brazil is bigger than the whole of Europe, that it is twice the size of India, and three times the size of China. You'll get more South American geography and history in six hours and a half than you can gather from dusty volumes in a year. And you'll get it at first hand from a man who knows South America as few men know it, and with it a charming narrative, amusing, pathetic, thrilling, interesting. An entertaining, informative travel talk.

Will appear at the Chautauqua in Bow Island, June 13-19.

Useful Combination.

Bow Island Farmer Strikes Artesian Well and a Supply of Natural Gas.

The announcement made some time ago by government geologists that water would be found at a certain depth in this district is proving to be correct by the drilling now in progress. On Saturday last Mr. L. H. Wright struck a fine flow of water at the farm of August Flamme, about seven miles south and three miles east of Bow Island. It was obtained at a depth of 850 feet, and is now coming out at the top at the rate of about half a barrel a minute. In addition to this Mr. Flamme is also the lucky owner of a miniature gas well. It is said there is enough gas coming out of the well to furnish his house with both light and heat. Apparently he has thus not only solved the water question, but accidentally made an important discovery relative to our gas fields. Considerable importance should be attached to this find. To our farmers especially it will be of great interest. To have gas and water on one's farm should not only tend to raise the value of the land but it should also attract outside buyers.

ANOTHER GERMAN OFFENSIVE.

Another big offensive by the German army was commenced this week, and both the British and French armies have been forced to retreat to some place a distance of twelve miles. It is stated, however, that General Foch has the situation well in hand now.

Weld Anything.

Useful Apparatus Installed by Local Business Firm.

A. Sharpe, who took over Bergeron's blacksmith shop, is rapidly bringing it to a fine point of efficiency. In addition to now being able to attend to all the necessary repairs in connection with farm machinery, he has also now installed machinery for welding and brazing. This should be of great importance to the town and district, as heretofore it has been found necessary to send work of this kind either to Medicine Hat or Lethbridge. This new apparatus includes one tank containing compressed oxygen recording a pressure of 2000 lbs., whilst another tank containing acetylene records a pressure of 1200 lbs. The two gases combined are projected from a torch on to the metal to be treated. The heat gained from this source may be imagined when it is stated that the flame will eat through a steel plate, half an inch thick, at the rate of a foot a minute. Equipped with the best gauges and welding and cutting tools, Mr. Sharpe says that with this apparatus he can now repair any kind of machinery. In fact, he would like to see the job that he cannot weld.

It's Your Duty

While the regulations governing public eating places and the orders of the Canada Food Board prohibiting or restricting the manufacture of certain varieties of biscuits, cakes, etc., which involve wasteful use of wheat, sugar and shortening, are not compulsory in the case of private households, they are being observed voluntarily in thousands of homes. These regulations have not been issued for amusement, but because there is real necessity for them, in order that we may support our soldiers and allies to the fullest possible extent. Consequently, their observance is a test of patriotism and good citizenship.

A moral obligation and responsibility rests upon every citizen to follow these regulations just as closely as circumstances possibly will admit, and to use more general observance in private homes. If every Canadian realized a personal duty to be a food controller, there will be an eagerness to adopt the suggestions and advice of the Food Board and not to shirk that food service which is necessary in order to feed those who are bearing the brunt of the fighting and suffering.

"Everyone Register."

Registration of the manpower of Canada, including all persons over 16 years of age, both males and females, will take place in June. It is expected that the registration will be of very considerable assistance in securing men needed to help with harvesting operations. An official outline of the regulations says in part: "Males will be particularly asked whether they were brought up on a farmer and if they would be willing to do farm work. They will also be asked if they can handle a horse, drive tractors, or use farm machinery.... Women will also have to state whether or not they have had any experience in any general farming, truck farming, fruit farming, dairy farming or poultry farming. Also whether they are able to drive a tractor, pump, hose, harness a horse, or do farm cooking."

25,000 Prisoners.

According to the German official communication, 25,000 prisoners, among them a French and British general, have been taken any number of additional towns and various points all along the front have been captured. Seemingly Helms, like Salomon, is doomed to fail.

Local and General

As yet, in spite of the dry weather, the crops are coming along fairly well, especially on the summer-fallow. Grain sown on spring breaking is reported to be rather patchy. With a good rain within the next week or ten days, however, a good crop is still in view.
N.B.—IT'S RAINING.

At the time of writing no news has come through from the Department relative to the Town Council, and consequently our City Hall is still bereft of its "sitting fathers." Why it takes the Department three weeks to solve our little local problem is beyond our comprehension. One would have thought that a week at most would have been quite sufficient, and under normal conditions we presume it would have been, but with the government under a heavy bombardment relative to its telephones, its bridges and roads and other little matters (which we will not mention) we suppose its nerves are enfolded to be "jumpy," and a rest is imperative.

Respectful en masse.

The delegates from Winnifred and Prospero to the convention at Medicine Hat the other week did not seem to have received very much encouragement. Probably the ministers of the provincial government that were in attendance failed to realize the needs of the above respective districts. If so, we can assure them that the need of improvements in the roads, especially in the Prospero district is both pressing and imperative. This is not a political question. It is one that affects the people of these two districts very closely, and the comment made by the farmers since the convention is not by any means favorable to the responsible department at Edmonton.

If the department is not able to effect these road repairs itself, an attempt should at least be made to give the district some organization of its own. We are aware that the residents have made a move in this direction.

tion, but how far it has progressed we have not as yet learned.

It is quite evident, however, that if the farmers of Winnifred and Prospero are suffering from bad roads (and this they certainly are) they can only find a remedy in having an organized district. The matter lies right there.

It was a kindly and thoughtful act of the people of Winnifred to give those boys who are leaving the district for military service such a rousing send-off this week. The affair was public and the large number of people who were present testified their appreciation of the opportunity offered of bidding good-bye to the departing ones. This matter of a public farewell could very well be adopted in other towns.

Gerald Duhaime, who recently signed up with the R. N. W. M. P., is now at Regina an inmate of the hospital there suffering from a dislocated thigh which he sustained in a baseball game when colliding with another player. The other fellow had three broken ribs and a dislocated collar-bone.

F. O. McKenna, barrister and solicitor, has opened this week an office in the Munro Block on Main Street, Bow Island. Mr. McKenna has had a long experience in law and recently decided to locate here owing to the big territory tributary to Bow Island. Together with Mrs. McKenna he arrived last week and is now residing south of the track in the house lately vacated by Mr. Milroy.

On Sunday, June 2nd, Rev. Geo. Wood, of Olds, will preach at the United Church. Mr. Wood is the founder and principal of Wood's Christian home for fatherless and motherless children. He sure and hear his address. Commences at eight o'clock. Mr. Wood will be at Rosemount at four o'clock.

A. C. Russell has been appointed to delegate to the Methodist Conference at Edmonton this week.

CANADA

MILITARY SERVICE ACT, 1917

PUBLIC NOTICE is hereby given that, by the effect of the regulations of the Governor General of Canada in Council of the 20th of April, 1918, and the Proclamation of 4th May, 1918, recently published, every male British subject resident in Canada, born on or since the 13th of October, 1897, who has attained or shall attain the age of 19 years and who is unmarried or a widower without children must, (unless he is within one of the classes of persons mentioned in the schedule of Exceptions to the Military Service Act) report as hereinafter directed on or before the 1st day of June, 1918, or within ten days after his 19th birthday, whichever date shall be the latter.

Such report must be in writing and must give his name in full, the date of his birth and his place of residence and also his usual post office address.

The report must be addressed to the Registrar or Deputy Registrar under the Military Service Act of the Registration District in which he resides (see below) and shall be sent by registered post, free of charge, no Canada postage is required.

Young men so reporting will not be placed on active service till further notice. They must, however, notify the appropriate Registrar or Deputy Registrar of any change of residence or address.

On receipt of the report an identification card will be forwarded by the Registrar which will protect the bearer from arrest.

Punctual compliance with these requirements is of great importance to those affected. Failure to report within the time limited will expose the delinquent to severe penalties and will in addition render him liable to immediate apprehension for Military Service.

**ISSUED BY THE DEPARTMENT OF JUSTICE,
MILITARY SERVICE BRANCH, this 15th day of May, 1918.**

NOTE: The men required to report should address their reports as follows:

Both the bride and groom are well known in this district and the marriage was taken advantage of by a large number to shower congratulations upon the happy couple.

Mr. and Mrs. Bulth will take up their residence upon their farm south of Bow Island, where the good wishes of all their friends follow them for a happy and prosperous future.

CONNOIR-CAUGHY.

A marriage that created considerable interest here in Bow Island was that which took place on Tuesday, at the residence, between Miss Mary Elizabeth Connor of Bow Island and Mr. E. Caughy of Burdett, the ceremony being performed by the Rev. C. Bishop. After a delightful repast served by Mrs. Wilnot, the happy couple left on the noon train for the coast, where after spending a few weeks they will return, to reside permanently at Burdett.

George Millar, Russell Schenert, Frank Nevers, Ben. Simpson and W. Myers left this week for Calgary to join up for military service.

Jac. F. Lyczewski has commenced the erection of a new barn, and proposes to shortly put up a new house.

J. H. Leamond, who only arrived in this district this spring, has had to return to North Lima, Ohio, to rep it for military service. He has sold all his machinery and rented his farm to A. C. Schultz.

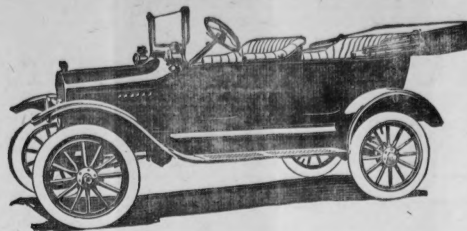

C. H. Hardy of the Gas Company, left on Monday to join up with the Engineers for active service.

It is understood the building of the new school will be commenced with the next few days. The site north of Main Street is now being cleared previous to the excavation of the basement.

G. W. Green and family moved to Lethbridge on Tuesday.

Ernest Beers, living nine miles south of Burdett, has been successful in getting a good artesian well, the flow from which, we are informed, registers about half a barrel a minute. The water was struck on Monday night at a depth of 450 feet. He has also obtained a good flow of gas from the well, and expects to have sufficient to supply his needs for both lighting and heating the residence. This makes the second artesian well drilled in this district recently, and there are quite a number more in prospect.

Messrs. Murrow and Gustavson have enlisted during the past week in the aviation corps.

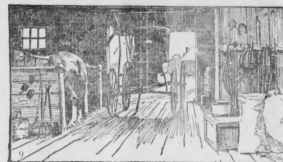

A Ford Car Takes the Place of all These Things

WHEN you own a Ford you can do away with many articles that are a source of continuous expense to the man who still drives a horse. For instance, not only your driving-horse and buggy, but the single harness, blankets, whips, currycombs, brushes, horse-shoes, pitch-forks, feed-bins, etc.

In their place you have a speedy, dependable, dignified, roomy Ford Car—complete in itself. It is vastly superior to the narrow, cramped buggy that travels so slowly. And when a Ford is standing idle it does not eat three meals a day, and it requires no "looking after."

A Ford will save you time, trouble, and money. It is the utility car for the busy farmer and his family.

The Chautauqua

When President Eliot, of Harvard, set out to collect for busy men and women the worth while literature of the age and to compress it into a "five-foot shelf" of books, he emphasized a tendency of the present age, busy with its own affairs, to get information in "tabloid" form. Time was when an individual might reasonably hope to read most of the worth-while books of the age. With the increased facilities for printing, however, the world has been buried beneath an overflow of publications, many of them altogether praiseworthy and valuable, and it is no longer possible for any individual to read all the books he would like to read, hence the necessity for selection and compilation.

What President Eliot did for literature, the Chautauqua Systems of today are doing for the spoken word, and for those art forms which have come to be closely identified with the platform. Our towns and cities finding it impossible to keep closely in touch with the world at large and to know with any degree of accuracy the man and woman who in various lines, are directing the world's thought through their platform offerings, have more and more come to recognize that the Chautauqua is the natural clearing house through which must come much of their personal contact with the men and women of the wide world. That the Chautauqua managers are aware of the responsibility which such a situation places upon them is evidenced by the thoroughness with which the markets of the world are searched for those men and women who have messages of real worth for the platform, and for those

Arrangements are being made throughout the province of Alberta for a "Sailor's Week," commencing on the King's birthday, June 3rd, and ending on the 8th with a Tag Day. During the week a general appeal will be made to all citizens, men, women and children to contribute something towards assisting the Navy League of Canada in caring for the Widows and Orphans of the men of the navy and

merchant service as well. The committee in charge of arrangements hope to raise at least \$150,000 in Alberta. Bow Island is expected to raise \$1,000 and the following committee, we understand, has been requested to act: J. G. Carson, J. M. Mitro, R. H. Robertson, W. A. Bateman, J. W. Hopkins and The Review.
